Baku, “Zerdabi Neshr” LTD. 2024. 96 pages.

Dear reader! The book "Nonbeliever should look at the Moon" in front of you, is the 39th book by Dr. Pasha Yagub. Here, the author talks about the secrets of solar and lunar eclipses unknown to science and researches their effect on the Earth.

The book is intended for astronomers and students studying in this field, as well as intellectuals working in various fields of science.

WHY DO MOON ECLIPSES OCCUR UNDER THE NUMBER 14?

Our “Elmi-Ladun” – Innate Science – scientific research shows that all lunar eclipses, as a rule, occur on the 14th of the Hijri-lunar calendar.

It is enough to look at the wisdom of the number 14 to know what coded information is transmitted to the Earth.

First, we bring to your attention the schedule of lunar eclipses with both calendars. (See: the chart of lunar eclipses below)

As can be seen from the table, all lunar eclipses of the “science age” occur under the number 14. The question arises that, despite the fact that there are 30 (29) days in each month, why is the moon eclipsed on the 14th day?

Let us remind you that the number 14 is the serial number of the Surah "Ibrahim" in the "Quran" and is considered a symbol of balance. In this surah, Allah Almighty talks about the meaningful life path of Prophet Ibrahim and highlights his struggle against oppression. His struggle coincided with a time when the balance between good and evil on Earth was disturbed to the detriment of the former. Allah restored the broken balance at that time through Ibrahim alaihissalam.

Our calculations show that the number 14 is connected to the Surah "Rahmli Allah" in the name of Allah and is considered a symbol of balance in the "Quran". Here is a formula to prove it:

Number 55, which is the serial number (code) of Surah Rahmli Allah, occurs 41 times in the Quran (that is, verse 55 is present in forty-one suras of the book. The number of verses in the remaining suras is less than fifty-five).

At the same time, verse 41 occurs fifty-five times in the holy book (verse 41 is found in fifty-five surahs of the Qur'an).

Thus, verse 55 occurs 41 times and verse 41 occurs 55 times in the "Quran". If we take into account this fact, which indicates balance, and subtract 41 from 55, the obtained number 14 indicates the serial number (code) of Surah "Ibrahim":

$$55 - 41 = 14$$

This formula once again confirms that the arrangement of the "Quran" is not a product of the human brain, but arranged by an extraordinary science.

The secret of lunar eclipses occurring under the number 14 is revealed in this formula. Thus, a message is sent by God to the powers that disturb the balance between good and evil and favor oppression, so that they do not exceed their limits and disturb the balance on Earth. From the facts we revealed in our previous articles, it was also seen that all major earthquakes and plane crashes on Earth are mathematically linked to

lunar eclipses. This proves that lunar eclipses are actually a signal of future troubles for those who break the balance.

While talking about the oppressors and the 14 numbers, let me bring to your attention an interesting historical fact that on the night Muhammad Aleihissalam was born, 14 pillars fell down from the palace of the Persian ruler Nushirawan, who was a cruel king. The astrologers and experts who were called to the palace to interpret the event decided after long discussions that the Prophet, who was foretold through the heavenly books, is already in the world. They also said that Nushirawan's authority will fall down and after 14 kings change, the Sasanian state will collapse. Not long after, the prediction came true and the Sassanid state collapsed. During this period, there were 14 palace coups, and each king's reign lasted only a few months...

It is known that since the beginning of mankind, there has always been a balance between good and evil. There have been stages of history where the existing balance between good and evil has been disturbed (to the detriment of the former). When examining the history of the prophets, it becomes clear that their appearance also happens at such moments. That is, God Almighty restores the broken balance between good and evil through prophets.

Even today, the imbalance between good and evil is evident on Earth. There is almost no justice left. This situation on earth has caused the anger of the Creator! Our scientific research shows that recent natural disasters, mysterious plane crashes... are manifestations of this anger. Scientific analysis of astronomical events shows that the person who will restore the disturbed balance is already among us.

Analyzing all this or other information (the disclosure of which is not suitable for the purpose), we would advise people to refrain from oppressing, suffering, and leading a corrupt lifestyle. Otherwise, the troubles coming to the Earth will intensify and most of the population will suffer from it.

"When the Prophet called you to believe in your Lord, what happened to you that you do not believe in God? Even before this, he took a covenant from you (that you would believe only in Him when you were in the world of spirits). If you are going to believe sooner or later, believe now - this is better for you!" Quran, 57:8.

THE SECRETS OF THE OCCURRENCE OF SOLAR ECLIPSES UNDER THE NUMBER 29

"Don't you see that what is in the heavens and on the earth, the Sun, the Moon and the stars, the mountains, the trees and the animals (all), and the people, some of them prostrate to God? "Quran", Surah "Hajj", 18.

One of the remarkable things about solar eclipses is that they occur under the number 29. That is, when we convert the date of the eclipse to the Hijri-Lunar calendar, it appears that all solar eclipses occur on the 29th of the month. Before interpreting the meaning of this number, we bring to your attention the table we compiled. (See: Table of Solar Eclipses below).

As can be seen from the table, eclipses occur again every 355 days (one year according to the lunar calendar) (this is repeated four times).

Let's look at the wisdom of the number 29 to understand the coded messages that solar eclipses convey to us.

First of all, let's note that the number 29 is a sign of the Earth. Because 29% of the Earth's dry land is occupied by humans (by the way, this wisdom is also manifested in the human anatomical structure. Thus,

the ratio of water to solid in human anatomy is 29 to 71).

Let's draw your attention to one more point that the 29th chapter of the "Quran" is called "Spider" and it points to evil forces, today's mafia and monopolies. As we know, today people living in 29% of the Earth are struggling in the spider web built by evil forces and mafias. In the "Holy Qur'an" the solar eclipse is mentioned as a sign of doomsday. In the 21st century, the occurrence of this sign (eclipse) under the number 29 should be considered as a coded warning to the people of Earth.

For proof, let me inform you that Surah 29 consists of 69 verses. The number 69 is considered a symbol of the Day of Judgment in the Qur'an because it is the serial number of the Surah "Hagg Al-Qiyamah".

In recent times, researchers studying the rise to power of dictators draw particular attention to one point, that many of them came to power under the number 69 (in 69). Is this a coincidence?

According to the logic of the "Quran", there are no coincidences in life! So what does the number 69 mean?

As we mentioned above, since the number 69 is the serial number of the "Hagg Al Qiyamah" surah, this number is considered a symbol of the Day of Judgment in the "Quran". The fact that the dictators, who are the prototypes of Pharaoh, come to power under the

number 69 and enslave the people by enslaving them in a web like a spider tells us that the doomsday is approaching.

We didn't compare dictators to spiders by accident. There is also a mathematical relationship here. Thus, with the number 29 of the "Spider" surah, it points to evil forces, network builders, mafia and monopolies in modern language. It is interesting that Surah 29 consists of exactly 69 (!) verses.

This fact shows that the 69th and 29th surahs are connected to each other both essentially and mathematically. Let me give one more evidence for proof: the number 29 (verse 29) occurs exactly 69 times in the holy book (there is verse 29 in sixty-nine chapters of the "Quran"; the number of verses in the remaining chapters is less than 29).

Let's note that the number 29 is also a sign of the part of the Earth where people live (land). Tyranny was established on the 29 percent of the Earth with the rise of dictators who were prototypes of the Pharaoh in 69, and the mafias ensnared humanity like a spider. The states they built are also mafia-type states (or state-type mafias).

Happily, since the beginning of the 21st century, the age of science and prophecy, this cobweb has begun to unravel, and with the will of the Creator, this

process continues to advance. This is not accidental. So that:

$$29 \times 69 = 2001$$

As we can see, the product of these wise numbers marks the beginning of the XXI century. We remind you that the number 21 is the serial number of the "Prophets" surah, so this number is considered as a symbol of knowledge, perfection and prophecy in the "Quran".

Atheists who believe that dictators have come to power mainly in Eastern countries make unsuccessful attempts to connect it with the Islamic religion.

If we look at this issue with an open eye, it is possible to see the exact opposite: in fact, it is non-Muslims - Jews and Crusaders - who created mafia-type states in all Eastern countries, brought dictators to power, and who are still maintaining their power with all their might. You don't need to be highly educated to see this. It is enough to be a little open-minded.

The Innate Science – scientific analysis of the solar eclipses of 2024 shows that the Supreme Creator is warning people and their leaders who have gone astray and strayed away from human values to repent and return to the right path and refrain from hurting and oppressing each other. Otherwise, unimaginable

troubles await the nations and their leaders. Our calculations indicate that in 2024, mafia-type states will collapse and the period of perfection (pangeism) will begin.

If we look with open eyes at the disasters that are happening in the world and are intensifying day by day, we can see every day how the humanity that has gone astray is punished.

"So do not be in a hurry for them, because We are counting their days one by one." "Quran", 19:84.

WHY DO ASTRONOMICAL EVENTS REPEAT EVERY 858 DAYS?

Through our many years of research on solar and lunar eclipses, we have established that the vast majority of astronomical events are repeated (connected) with the number 858. Our calculations show that this is not accidental, but follows a special regularity. To understand this pattern, let's look at the following events.

1) Biological science says that a person is born in the mother's womb for 280 days. In fact, it takes 286 days for a person to develop in the womb.

That is, after the couple's meeting, it takes 6 days for the seed to reach the mother's womb + 280 days of normal development in the womb = 286 days.

2) People mostly use the Sun and Moon (Lunar)

calendar, they celebrate the calendar change twice a year: on March 21 and December 31. The number of days remaining between these two holidays (counting from Nowruz holiday) is usually 286 days, which corresponds to the number of days when a person was born.

3) It is interesting that the number of days remaining between the two major holidays of Islam - Eid al-Adha and Eid al-Fitr (counting from Eid al-Adha) is 286 days.

4) The lifespan of kidney cells is also 286 days.

5) Another important point here is that the original "Quran" consists of 286 pages. That is, all the "Quran" books printed until the 18th century (until the view of Islam in Arab countries changed) and stored in the Kaaba, as well as in various museums and libraries of the world, are placed on 286 pages.

6) It is no coincidence that the 2nd surah of the "Quran" – the "Cow" surah also consists of 286 verses. So, science has already confirmed that the anatomical structure of the cow is formed by the combination of 286 bones.

It is repeated three times when swearing by the "Quran" or when repenting. If we translate this into mathematical language: 286; 286; 286. When these are added, the number 858 is obtained:

$$286 + 286 + 286 = 858$$

Our Innate science – scientific calculations show

that all astronomical events (Sun and Moon eclipses) are repeated under the number 858, which is three times the number 286. It seems that the purpose of the Creator is to direct the attention of mankind to His book ("Quran") with astronomical events. On the next page, we bring to your attention two tables that prove this, which are among the greatest discoveries we have made in the science of astronomy.

THE NUMBER OF ASTRONOMICAL EVENTS INDICATES THE RATIO OF WATER AND DRY MATTER IN THE HUMAN BODY

Even before the science of astronomy, priests recorded and analyzed the number of solar and lunar eclipses for centuries. After long-term analysis, it was determined that astronomical events are divided into periods, and each period covers 18 years, 11 days, 8 hours, or **6585** days. Later, the science of astronomy was born and astronomers call this period "**Saros era**".

Our research shows that all solar and lunar eclipses, as a rule, repeat with a difference of 6585 days. Here are the tables that prove it:

Lunar eclipses that occur every 6585 days

In each "Saros period", as a rule, 71 astronomical warnings (solar and lunar eclipses) occur. As a rule, 28 of these 71 eclipses are lunar, and 43 of them are solar eclipses.

Our Innate science – scientific calculations show that the number 71 here refers to the oceanic part of the Earth (71% of the Earth is water and 29% is land).

Another important point here is that the human body also consists of 71 percent of water and 29 percent of dry matter.

When we talk about the sea, the first thing that comes to our eyes is the ark and Noah. It is no coincidence that the serial number of the "Noah" Surah of the "Quran" is also 71, which indicates both the seas and the 71 eclipses of the "Saros Era".

Surah 71 contains 28 verses, which is the key to the 28 (!) lunar eclipses in the "Saros era":

$$71 - 28 = 43$$

This formula is the key to solar eclipses, which occur 43 (!) times in one astronomical period.

MOON ECLIPSES AFFECT PLANE ACCIDENTS

By the way, astronomical events also affect plane crashes. Our calculations show that the mark above each crashed plane indicates the number of days that have passed since the lunar eclipse. For example, on the 727th day of the lunar eclipse of December 30, 2001, the "Boeing-727" plane crashed. On the 737th day of that eclipse, "Boeing 737" crashed (more details in the table below).

**Table showing the correlation between
plane crashes and lunar eclipses**

WHO DOESN'T BELIEVE ME SHOULD LOOK AT THE MOON

It's not a spot on the moon, it's a map.

Since the beginning of the world, humankind have seen the "spot" on the Moon every evening, but they did not understand its meaning, so they created various legends about it. During our scientific research, it turned out that this "spot" is actually a map of the once-existing continent called Pangea. As it is known from the science of geography, in the beginning, the Earth consisted of only one continent, which was called Pangea. The name of the ocean that surrounded that continent was Pantalas.

(See: Image of Moon and Pangea)

The meaning of the word "Pangeoist" - "Pan os" - "complete", "whole", "root" (self); "geo" means "Earth" and that means "whole Earth". The followers of this idea are called pangeists.

Over time, the continent of Pangea was first divided into two parts - Laurasia and Gondwana. At present, you all know that there are six continents. Just as people born from one father and one mother were divided into nations and peoples; then they were divided into races, religions, sects... and came to their present state. The children of the same father and mother are already enemies to each other, and they are ready to drink the blood of the members of one nation and another, one religion and another!

Our research shows that in the near future, the ideology of Pangeism will appear in the world, and this ideology will prevent the division between people, the raging wars, and return the Earth to its previous state - a whole Earth - Pangea.

With the activity of the Pangeist movement, all people living on Earth will unite around a single idea, put an end to today's hostilities and wars, and live in peace and tranquility.

Today, the main propaganda in the temples, which are the source of income of the mafia leaders, is based on the fact that people belonging to other religions (or sects) are your enemies and you must kill them and take their wealth and land from their hands. Basically, they attract illiterate, unscientific, unemployed and powerless people to wars by promising them wages.

As a result, they sell their weapons to the parties involved in the war, and sell the captured people (their internal organs), and they also earn a lot of wealth from robbery and drug transit. In many cases, they don't even pay the salaries and insurance of the soldiers participating in the war (soldiers fight to the death, they sacrifice their lives for the mafias).

In order to prevent all this, to free people from the slavery of religious and state mafias, Pangeism ideology will recommend people to learn science and stay away from the temples and "houses of God" installed by these mafias. Thus this propaganda will spread throughout the world and people will return to their former state of unity and peace.

The reader will have a question: will people become irreligious in the era of pangeism?

Of course not! They will accept the unity of the Creator. In their activities, they will prioritize science, morality, halal and honesty - in short, human values. Simply, they will not go to any of the existing (mafia-controlled) temples (churches) and they will not create any churches themselves. As we mentioned above, they will accept God's oneness and omnipresence. For this reason, their belief will be more in line with Tawheed (oneness of God) preached by Prophet Abraham, the grandfather of all the prophets who were given the book. As we know, Tawhid is the source, the beginning of all religions (at that time there was no temples).

Those who believe in Pangeism will take the

philosophy of Ibrahim (peace be upon him) as their basis. What is Abrahamic philosophy? Ibrahim's philosophy is to embody the following qualities:

- to be a truthful speaker, not to admit to others what you don't allow to yourself;

- knowing the person in front of you at your own level;

- not to look at other people's property and honor;

- trust only in the Creator;

- not to be adulterous;

- not to be boastful and arrogant;

- to be honest, fair, honest, generous, merciful and kind;

- to be friends with God's friend, to be enemies with his enemy;

- to thank God in every situation;

- not seeking profit from things that belong to God;

- to be patient in world affairs;

- not to fear anyone other than God;

- in any case (even if his life is in danger) only speak the truth and stand by the truth...

In a word, surrendering to human values, incorporating these values. A person who embodies Abraham's philosophy, regardless of whether he accepts a religion or worships, is in direct communication with God, and can save himself, his family, his clan, and all of humanity; He can establish peace in the world.

Unfortunately, today people who do not have any moral values call themselves religious. Even, such

people are appointed religious leaders of countries by mafias so that people's faith in religion and God will decrease and they will go astray. Such "religious leaders" drag those who stand behind them to hell together with them...

THE ENEMY OF PANGEISM IS SELFISHNESS

Let's also note that every person is born as a pangeist (peace-loving, peacemaker). Do you think, the babies are always trying to calm down the quarrels in the house, to separate the quarrelers. As the child grows older, he tries to take away other children's toys; when he grows up, he tries to take away other people's wealth, state, and land. Because, as he grows up, egoism in that person becomes stronger and Pangeism (peacefulness) disappears.

It is clear from here that the enemy of Pangeism is egoism. That is, as egoism increases in a person, it suppresses Pangeism. Only prophets and friends of God were able to preserve their Pangeism until death. In short, the philosophy of pangeism is the Abrahamic philosophy that I explained above. Prophet Ibrahim was the greatest and perfect Pangeist. The idea of Pangeism that will appear (or has appeared) in Azerbaijan will advise people to be HUMAN at first, and then to accept religion. For this reason, many religious leaders (Christians, Musavis, "Islamists") will unite against him.

Although, until today, their (pangeists') tongues

are swollen from praying for peace in the world. Since they are not satisfied with what Pangeist (Peace-loving) said, the "religious" people will revolt against him first. In fact, mafiosi (oppressors), as always, will try to use the "religious" for their own purposes in this case as well. That is, they will try to discredit Pangeist (Peace-loving) who wants to establish peace in the world by the hands of "religious"...

To prove that the thoughts we wrote are not subjective and that they are a message from God, my Lord taught us the secret of the "spot" on the Moon so that those who do not believe in us should look at the Moon. If the secret you see on the moon is true, then what we have written is also true (from God).

CORRECT INFORMATION IS MORE VALUABLE THAN ANYTHING ELSE

The question will arise in the reader, what will the social structure be like after humanity is united and becomes one?

Indeed, it is an interesting question: in which structure will humanity live in the future (pangeism) - will it be capitalism, socialism or communism?

What we do know is that in the future, humanity will not live in any of these structures. The name of the future structure will be Informationism. The main issue in this structure will be information. Correct information will be most valuable.

In Pangeism, the power structure will be

Meritocracy. "Meritocracy" means the rule of the educated and intelligent. That is, people will not be treated according to the party, religion, or generation they belong to, but according to their knowledge, intelligence, and understanding.

I will also inform you that at that time, science among people will develop very strongly and it will be close to the science of living beings living on other planets, maybe more than them.

In the period of perfection (pangeism), culture and art will also develop better than now. So, the buildings built will resemble people, animals and trees. That is, architecture will develop so strongly that you will be able to order and build buildings that look like any prominent person, your favorite animal, or your favorite tree or flower...

WHO WILL BE CONSIDERED SAINTS IN PANGEISM?

According to Pangeism, every person who works for the good of society, does good and benevolence to people, and benefits humanity with his activities, is God's mediator and is considered holy.

Neither love, nor beauty, nor religion will save the world! Only and only goodness (good deeds) will save the world. Do good and be one of the saints!

WHEN A VOLCANO WANTS TO MARRY, SENDS DOLPHINS AS MESSENGERS

It is known to science that volcanoes are divided into two genders, male and female. Volcanoes in water and on land have different (opposite) genders. If lava from a volcano on land meets with water (pours into the ocean), it means the meeting of volcanoes of the opposite gender, and in the meantime disasters in the world are on the way to increase...

Usually, before such events occur, dolphins massively throw themselves from the oceans onto land...

In recent years, although dolphin strandings from various oceans and seas have been observed and disasters on Earth have increased, people find it difficult to see the connection between them.

According to innate science, when a volcano in the ocean wants to meet (read: marry) a volcano of the opposite gender on the land, it sends dolphins as messengers...

An example of this is the La Palma volcano in Spain, which occurred on September 19, 2021, when its lava poured into the ocean. Before that, massive stranding of dolphins was observed.

Such events are usually associated mathematically with lunar eclipses.

Therefore, when you see dolphins coming ashore, you should know that troubles will come to the Earth, and it is recommended that you do good deeds to protect yourself from this.

THE FEELING OF LOVE PERFORMS THE FUNCTION OF AN ACCUMULATOR

Surah 16 of the "Quran" is called "The Honey Bee". I should note that since the mother bee feeds her young with milk for 16 days, the surah about her is also numbered with the number 16. In the mentioned surah, the example of the bee instills love for people: Honey is what the bee has for the flower. It is considered a symbol of love both in the West and in the East because it was created as a result of love.

Since love is a burning feeling, this word is used along with the word "to burn", "to ignite". This wisdom manifests itself in chemistry under the same numbers. Thus, sulfur, which is the 16th element of Mendeleev's table, entered our everyday life as a burning agent. Also, just as love gives a person the desire to live and energy (soul), sulfuric acid (H_2SO_4) produced by the oxidation of sulfur has entered our lives as a source of energy by being used in the production of batteries.

Two parties are involved in love, and without one, the other cannot "burn". This situation manifests itself in the same way in chemistry. Thus, Sulfur, which is the 16th element, does not burn without Oxygen, which has an atomic mass of 16 (!). The most interesting thing is that in the combination of Sulfur and Oxygen, the electrons of Sulfur are located in the form of 2 - 8 - 6 energy levels. When we read this as a whole, we see that it is a sign of the number of pages of the "Quran"

("Quran" was placed on 286 pages, regardless of where and when it was printed, from its revelation until the 18th century; we will talk about this in the next chapters). Let me note that the sum of the number 286 is equal to $(2 + 8 + 6) = 16$, which once again proves that the "Quran" instills love in people:

"It is one of the signs of His power that He created for you wives of your own kind so that you may communicate with them, and that He created friendship, love and mercy among you. Indeed, in this (this creation) there are signs for a thinking people! Quran, 30:21.

When you multiply the serial number of Oxygen, which has an atomic mass of 16 and ensures combustion (8), by the serial number of Sulfur, which is a symbol of love - 16, you get $(8 \times 16) = 128$. This shows the sum of the verses of the "Honey bee" surah and once again confirms the connection between the elements and the surahs.

I want to draw your attention to another characteristic of the honey bee that manifests itself in humans. I mentioned above that the honey bee loves the rose, which is a symbol of beauty, and only comes in contact with them. I want to remind you that the beauty of nature is flowers, and the beauty of society is women. Just as a bee's love for a flower produces honey, so a human's (man's) love for a woman produces a child, and both are sweet. Because both are born of love. The proverb "A baby is sweeter than honey" originates from this wisdom. God created the honey bee as an example

for people to build a family, state and army. Because the honey bee family is superior to all living things with its hard work, diligence, strict discipline, cleanliness and usefulness. That is why the honey bee won the love of God and the surah was revealed in its name. It is clear from here that any person who has these qualities can win the love of both society and God.

In addition to the honey bee, I would like to mention one interesting point: male bees have 16 single chromosomes, and female bees have 16 pairs of chromosomes.

"You love each other so that I will love you" God Almighty.

By the way, let me mention that one of the ways to win God's love is science. A person working on this path (student) collects some knowledge (juice) from each book, and as a result, his work is evaluated with a score ("ball").

Let me mention that my Lord loves his servant who has a lot of knowledge and faith more than others. This can be clearly seen in the face of Prophet Logman. Thus, even though God Almighty did not send a surah in the "Quran" in the name of many prophets to whom the Book was given, he only sent the 31st surah in the name of his servant Logman (Peace be upon him!) to whom he bestowed the knowledge of medicine.

This fact is a manifestation of my Lord's love for scientists.

WHY DOES THE NUMBER 13 EXCITE PEOPLE?

The 13th Surah of the Quran is called "Thunder". It is well known that thunder is an energy process and creates excitement. The Surah says:

"Thunder praises His Glory. He sends thunderbolts and strikes them when (the disbelievers) dispute about God. God's punishment is severe!" (13:13).

It is interesting that the wisdom in the number 13 manifests itself in the science of chemistry. So, the 13th (!) element in Mendeleev's table is Aluminum. Due to its high electrical transmission capacity, aluminum is the core of the energy (!) industry.

The number 13 is considered a symbol of excitement both in the "Quran" and in physics (thunder also creates excitement in humans). It is no coincidence that the charge of a hydrogen atom that has not received energy (unexcited) is 13 EV. A hydrogen atom gets excited when it receives energy and is released by transferring its charge.

The quick spread of bad news among people is also related to excitement. That is, because the energy charge of bad news is negative, the person receiving it is excited and tries to transfer its charge. When we compare this case with the excitation of the atom and nature (thunder), a great similarity is seen. Also, just as nature discharges its stress (burden) with rain, man discharges it with tears.

I want to draw your attention to another interesting

point about excitement. Many of you have probably noticed: when a person is excited, the first reaction to this excitement takes place in the gut. That is, there is a sharp pain in the intestine. Biological science has confirmed that the length of the intestine in each person is 13 (!) meters.

By the way, let me mention that although many chemists who lived before Mendeleev tried to create the periodic table of elements, they could not achieve it until the end of their lives. When answering the question about how he discovered this table, Mendeleev stated that the table was shown to him in a dream while he was in Baku. The scientist, who woke up early in the morning, wrote down the table that was revealed to him in a dream.

WHY WAS MENDELEEV'S TABLE FALSIFIED

Speaking of Mendeleev, when the scientist was alive, there was an element called "Newtonium" in the table compiled by him. After Mendeleev's death (1907), that element was removed from the table. For proof, it is enough to look at the book "Fundamentals of Chemistry" (8th edition), published in 1906, which is in the collection of some libraries. Unlike the current tables, that table has group zero and the only element in this group is "Newtonium" (current tables start with one (Hydrogen)).

This kind of falsification stopped the progress of civilization by hitting the future development of chemistry, physics, biology and medicine. Currently, in schools and higher education institutions (including medical universities), Mendeleev's table is taught incompletely, which is nothing more than an open fraud.

Knowing the secret of this element, the great scientist Nikola Tesla (1856–1943) created a permanent engine. Later, he discovered the wireless distribution of power. This brought the end of his career: he was found dead under mysterious circumstances in his hotel room. The intelligence service immediately removed all his manuscripts and

scientific works from his room.

A question will arise in the reader that why the element "Ether" (Newtonium) and its benefits are hidden from humanity with such a serious effort?

The reason is that the element constitutes the energy and soul of the universe. It is impossible to understand the Universe and creation without knowing the existence of "Ether" and its secret. The big powers (mafias) that exploit humanity today are not interested in people's understanding. Because it is difficult to exploit a smart, insightful person.

Also, it is not in the interests of mafias who control energy resources to apply permanent engines in life.

As we mentioned above, the removal of "Ether" (Newtonium) from the Periodic Table of Elements prevented the development of chemistry, physics, and biology, as well as dealt a great blow to medical science. Medical science, which is related to the sciences I have mentioned, was also incomplete like them.

Our experience shows that by deeply knowing the secrets of the "Newtonium" element, it is possible to successfully treat all diseases, including cancer, parkinson, epilepsy, multiple sclerosis and other diseases considered incurable by medicine. This element is hidden from humanity because it does not benefit the big companies (mafias) involved in the production of drugs to cure diseases without drugs.

HANDS ARE TALKING LIKE THIS

One of the incalculable wisdoms in the anatomical structure of a person is fingerprints. No matter how many people have come and gone since the beginning of the world, none of them have the same fingerprints. In the Qur'an, there is a discussion on this topic in only one verse. It is said that when people are resurrected on the Day of Resurrection, those traces will be restored as they were, and their deeds will be proved to them by those traces:

"Yes, We are able to fix his fingers (fingerprints)!"
Quran, 75:4.

Let's count together with you, starting from the first verse of the Qur'an, until the 4th verse of the 75th Surah (fingerprints). When we come to the only verse that mentions those fingerprints, we will see that it is the 5555th verse of the Quran.

You will say so what?

And now, let's put our two hands (with five fingers each) and two feet side by side and count our fingers: Did you see the number 5555 (!)?!

Does this also indicate the 4th verse of Surah "Qiyamat" (75)?:

"Yes, We are able to fix his fingers (fingerprints)!"
Quran, 75:4. (Verse 5555.)

Don't forget that our hands will speak like this (both in this world and in the next) from our highest official to our shepherd on the mountain! So let's pay attention to our actions. Let's try to leave our fingerprints only on good deeds.

THE MODERN TELECOMMUNICATION INDUSTRY IS BUILT ON THE SERVICE OF DEMONS

**Why don't those who carry demons in their
pockets believe in the existence of demons?**

Today, some people try to pretend that they do not believe in the existence of demons in order to appear elitist. It seems to them that believing in the existence of demons is against science and is a sign of ignorance. They no longer understand that the modern telecommunications industry, cell phones and transmitters exist because of demons. That is, if God had not created the tribe of jinn, today we would not be able to talk to the person who is on the other side of the world in the palm of our hands with mobile phones. It is no coincidence that the mobile operators operating in our country all have demon names - CIN, Nar, Sim, etc. Denial of the existence of a demon by a person who carries a demon in his pocket and uses its services every minute is actually due to illiteracy and ignorance...

Many of you have probably watched the scenes in the famous movie "Secret of a Castle" about the demons named "Sim" and Nar" and their kings. "Sim" is the name of the connecting demon; "Nar" means fire, flame. As we know from the Qur'an, God created jinn from fire.

By the way, in an episode about the life of the

Prophet Suleiman in the Qur'an, his use of the services of jinn is described as follows:

"A (very strong and huge) witch from among the jinn said: "I will bring him to you before you get up from your seat (throne). I am very strong and reliable to do this work! (I have the strength to take the throne of Balqis and bring it. I will not even touch the gold, silver, jewels on the throne, I will not take anything from them!)"

"(Suleiman asked for the throne to be brought sooner). Someone who has some knowledge of the book (God's book or tablet) said: "I will bring it to you in the blink of an eye (when you close and open your eyes)!" Quran, "Ants" surah, 39-40.

Don't the jinn bring to us a thousand times a day what they brought to Suleiman through mobile phones? Don't they put a person in any part of the world in front of us (in the palm of our hand) in the blink of an eye?! So why do we deny this service to make ourselves look "elite"?

As an Innate-science scientist, we know it is necessary to mention that demons are actually an object known as a wave in physics. Since the frequency of the waves in demons is incomparably higher than that of humans, their appearance to humans (in science it is called hallucination, and among the people it is called nightmare) results in the disruption of the human nervous system. It is similar to television waves hitting each other and removing them from the screen (the strong wave suppresses the weak wave and dominates

the screen). A similar process can take place in the human brain - negative (minus) waves transmitted by creatures (demons) in the parallel world enter the human brain and destabilize it. When the frequency (hertz) of the wave is high, hallucinations occur and the human nervous system is disturbed, mental-nervous (read: anger, hertz) diseases arise. After that, the demon dominates the human mind, controls it, and gives any command. The fact that some mentally-nervous patients are confined to their homes, some injure their relatives, burn houses, and attempt suicide are also signs of this.

It is clear from this that the Creator did not send the Surah "Demons" (72) in the Qur'an in vain, nor did He give the knowledge about it to Suleiman by chance. Demons, in one form or another, are rendering the service they provided to Suleiman to each of us today. In order to be sure of this, it is enough to put your hand in your pocket, take out your "CIN" (or Simi, Narı) and look with deep thought (with open eyes, insight)...

Another technological tool based on the service of demons is the navigator. It probably didn't occur to you to look at this technology, which is used by many people in your daily life, with open eyes (insight). It seems to many of you that the voice that speaks in the navigator is a pre-recorded audio recording loaded on the computer. In fact, if the voice guiding us had been recorded from the beginning, he would not have been able to see where the road we are currently walking is crowded and where the police are standing (both the

traffic and the police are temporary, sometimes they happen, sometimes they don't). For practice, let's ask the policeman at the police station, which the navigator informed us about in advance, to change his place and stop in another place for ten minutes. Let's go back and go the same way again. We will see that the voice from the navigator no longer informed us about the presence of the police. These and other signs indicate that the voice in the navigator was not recorded from the beginning; live, currently monitoring our movement and warning us of upcoming obstacles.

The question arises: what is the voice of this entity, which serves billions of people in the world at the same time? According to our research, the navigator, like mobile operators, is built on the service of demons and uses their waves. No other being can follow and guide so many people at the same time. Let's also note that in the parallel world that surrounds us, the number of demons serving good and evil is unknown.

"We gave knowledge to David and Solomon. They said: "Praise be to Allah, Who has made us superior to most of His believing servants!"" Quran.

THE CREATION OF PROPHET JESUS IS SIMILAR TO THE PROCESS OF PLANT REPRODUCTION

Despite the fact that more than 1400 years have passed since its revelation, new wisdoms and mathematical precisions of the “Quran” are always come to light. We have presented some of them in our previous posts. Let’s take a look at some of the mathematical secrets in the Holy Book in this article.

As we know, man was created from soil and water. Our research shows that the words soil and water (sea) appear 13 times and 32 times in the "Quran". Taking this into account, let's sum these numbers:

$$13 + 32 = 45$$

To find out the secret of the number 45 received, let's make such a calculation:

$$13 : 45 = - 28.9 \text{ (29)}$$

$$32 : 45 = -71.1 \text{ (71)}$$

Let me note that the number 28.9 indicates the dry part of the Earth, and the number 71 indicates the water part.

It is interesting that the ratio of dry matter and water in the human anatomy is the same - 71 to 29.

The number 71 is also the serial number of the Surah Nuh of the Holy Quran. The abjad count of the

word Noah is 64. The surah itself consists of 28 verses, which is reflected in the above calculation.

Now, we want to draw readers' attention to another point.

Thus, in the "Quran" 23 times female words are used and 23 times male words. This is not accidental. So, if you add them together, you get 46 numbers.

It is interesting that science has already confirmed that the number of chromosomes in each person is 46 (!):

46 (XY) in males
46 (XX) in women

So, let's subtract the number of male and female words in the Qur'an (23) from the total of 45 words for sea and land:

$$45 - 23 = 22$$

Science has confirmed that 22 (!) pairs of 46 chromosomes in men are similar to each other (spouse).

In verse 17 of Surah Nuh, the Creator says:

"And God created you (your father Adam) like a plant from the earth."

It is interesting that the number of letters of this verse about creation is the same as the number of male and female chromosomes in the original (Arabic) - that is, 23.

Our scientific studies show that the process of reproduction of plants through pollination is similar to the process of creation of Jesus, peace be upon him.

Thus, the role of the flower in plants is to ensure reproduction through pollination. It is the case that the pollens left free from the organ of a male flower reach the tip of the organ of another female flower, and there the seeds of a new plant are formed.

Pollen is transported (pollination) by wind, bees and insects.

We observe the same situation in the process of creation of Jesus in Mary's womb. Thus, in the "Imran family" surah of the "Quran", Allah says:

"In that case, the Lord accepted (Mary) well, raised her like a beautiful sapling (!)..." Qur'an, 3:37

Here, the word fidan (Arabic plant, plant) indicates that Mary will conceive Jesus in the future as in plants (by pollination).

In the Surah "Maryam" of the Holy Quran, Allah Almighty says:

"(Gabriel:) "I am the messenger of your Lord (sent) to give you only a pure (innocent) boy!" - he said.

(Maryam) said: "How can I have a son when no human hand has ever touched me?" I'm not even an adulterer!"

(Gabriel) said: "Yes, but your Lord said that it is easy for Me. We will do it as a miracle for people (as evidence of Our power), and as a mercy from Us (to you and the believers). This is a predestined judgment!"

(Mary) already became pregnant (Jesus by the blowing of Gabriel) and withdrew with him (with the child in her womb) to a distant place (seclusion)...". Surah "Maryam", verses 19-20-21.

It can be seen from the verses that the process of reproduction of plants through pollination coincides with the process of creation of Jesus. This is what is mentioned in Surah "Nuh" and talks about creation:

"And God created you (your father Adam) like a plant from the earth" - confirms the verse once again.

CREATION AND CIVILIZATION

By the permission of the Creator, a particle was separated from Him. This particle was the Life particle. This particle created the Universe in an explosion. At the time of creation, air, fire, water and earth were created. These four elements also created the minerals on earth.

Minerals also have souls. Because they are always in motion. If they were not in motion, would plants ever grow from the soil? From the unity of minerals and the four elements, the plant spirit was born. The plant spirit combined with minerals and the four elements to create animals - sentient beings.

Later, from the unity of this union, plants, animals, four elements and minerals were united and human beings, the beauty and enemy of the world, were born. At this time, the world was in its infancy. Just like the embryonic period of the embryo. Do stubborn people think it's a lie? But how did they turn from embryo to meat? Man evolved by divine laws. Isn't this evolution going on in one's own mind right now?

There was a time when man lived in a cave and he was ignorant. Didn't the need and curiosity make him eager to learn? To bring innovation, you must be educated and break the chain of extreme prohibitions. If a person wants to be educated, if he wants to build a house of knowledge, what force gives shape to that house? Don't stubborn people know this? Didn't the POWER that later gave man knowledge teach him to

get artificial fire? Didn't man make a car when he learned? Why does man deny the divine law of evolution? Do people still not understand what is the driving force behind evolution? Evolution - action, effort; revolution is the result.

Didn't the world enter the period of infancy later?! Didn't nature play the role of mother in this period?! Instead of asking the Creator for wisdom and patience, instead of working and researching with all your might, didn't you fear His creations and worship Him?! Wasn't the invention of artificial fire, sculpture, painting, and bread the greatest success of man in infancy?!

Thus, the world stepped into childhood. During this period, people domesticated animals. Didn't they use them for their own good, like riding, harness, meat, dairy?! After a while, you made carts from the trees to use these animals. Wasn't all of this helped by your innate passion for innovation?

Didn't you succeed by asking the Creator for knowledge, loving him, and working hard to create innovation?!

As time went on, some of you formed tribes. These tribes were your relatives. Didn't you kill each other for wealth and property when your feelings prevailed over your mind?! After all, you were all created from a pair of humans; how ungrateful are you!? As a result of these tribes, you have increased animalistic feelings. Just as when you throw meat in front of cubs born from the same mother, you also bit each other as they bit each other!

Then you created a state. You called this state a slave state. You treated your own people like animals and gave them the names of talking tools, living dead. In fact, you were no different from them. You dressed it up as a religion to justify your authorities. You have made idols of yourselves and have also created holy places and called them the house of Gods. Surely you were aware that God is everywhere. Because scientists, philosophers and prophets among you understood this. What's the use, they said, and you, for your own ideologies, crushed them like plants and turned them into minerals. But you did not realize that those innocent people will join the Creator, but you - people with a weak spiritual world - will remain only as minerals.

Those who have been given knowledge have come to you. These people told you that slavery was a sick idea, and after the sacrifice of many scientists, you were finally on the right track. During this period, the prophets, who were learned people, showed you the Truth through fear. Because you didn't understand otherwise.

Later, some of you, in order to divide and separate people, implanted in your subconscious that the Creator is not alone and omnipresent. You believed in what they said and built shrines for their benefit and named after them that this is the house of the Creator. So you created idols, synagogues, churches, mosques.... In fact, such divisions have torn you apart and made you enemies of each other.

The feeling of fear has affected you so badly that your eyes have become veiled. The Creator has given the feeling of fear to man so that he does not get too attached to this feeling. Believe in real fear, not fairy-tale fear. If you believe in the fear of fairy tales, you will definitely become a tool of tricksters!

If you fear the Creator, you will also fear the unjust leaders of the state. Because you are not afraid of the Creator himself, but of the sufferings that He will give you.

Artificial confidence is like fake honey. Fear is necessary for a man without will; a strong-willed person loves the Creator and believes in him. Those who abused the Day of Judgment also abused your labor and exploited you!

In the subconscious of every person there is a belief in imaginary things. If you were an educated person, you wouldn't believe everything. Woe to those who abuse the feeling of fear! Don't believe them. Their goal is simply to turn the man into a tool.

Let those people stop their bad deeds! Fear breeds laziness, and laziness breeds poverty. Try to penetrate the depths of fear and turn it into strength. At that moment, the difficulty will seem easy to you. Fear weakens the will; at that very moment, your mind is confused.

Who has been harmed by education? You will understand the Creator only through knowledge and love. If you become educated, you will discover divine laws and you can only benefit humanity. It is not a

religious book, but just a mind book.

You should know that today the World is going through adolescence! And the book of the mind is one of the ways that lead you to youth. Only intelligent people can understand this book. This book is a book that inspires you. A smart person is not afraid of imaginary fears! He looks for the reason for everything. Fear is one of the shared feelings of humans and animals. An animal has neither doubt nor love. The feeling of doubt makes a person eager to learn; and the feeling of love inspires him.

People are faced with a choice: choose the good path if you have a mind. If not, always be afraid of everything, become ignorant or harm yourself. Don't people know that? Should you scare them?

God created animals to serve as examples for humans. Human society developed and formed by learning from animals. For example, mankind learned to build a state and army from a honey bee, weaving from a spider, hard work from an ant... Even then, there is much to be learned from animals.

Do you think that after the animals raise their young for a while, they release them to the mother nature. People should take a lesson from this and release their male children into the society after reaching puberty. As those sons serve the society (people), they are formed as personalities, polished and shine, and shine around. The society, in turn, evaluates the service of those sons, elevates them to a certain level and returns them to their parents as the holder of

a high status. Just as Prophet Abraham was ready to sacrifice his son Ismael. God accepted this sacrifice (little Ishmael) and returned him to his father in the form of Prophet Ismael.

Parents should take a lesson from these events and be ready to serve their sons to the people and society (if necessary, to make sacrifices in the way of the people). Then, the society will love those sons and sooner or later (after they get out of the experience) they will turn them into high status holders and great personalities. All prophets and historical figures, public figures grew up in this way - in the bosom of society, serving the people. If you look at history, no child growing up under parental control has become a prophet or a historical figure. Parents who don't want to share their sons with the society (leave them to the society) prevent their development and becoming a historical figure in the future...

The end of all immorality is early death. This is the Divine law; no man can break it! People need to be educated so that they can discover the secrets that are not yet known to them and reduce the number of premature, sudden deaths of people.

As science develops, all obscurities will be clarified. The more you serve the tree, the more beautiful and sweet its fruit will be.

We are currently living in the period of adolescence as a society. Therefore, in this period, the lack of discipline, immorality, and interest in the opposite sex, characteristic of teenagers, is increasing

in society. The tendency to do bad things increases. Everyone wants to be famous in inappropriate ways. Think about it: has there ever been such a period of humanity when, on a massive scale, everyone, regardless of age, could not control their feelings, or increased interest in singing and places of entertainment? Was there ever a time when everyone was impatient? Aren't these obvious proofs? O stubborn person, why don't you want to understand this?!

Not everyone will be able to pass from adolescence to youth. Because if a person does not control his feelings, he will quickly perish! The universe is a jungle for man. The only way to survive this jungle is to learn and ask the Creator for wisdom and patience. Wasn't the power, strength, and energy that created a fruit from a seed a result of science?! Isn't the Almighty Creator the most knowledgeable of scientists who gave you knowledge?!

All people must unite, put down the gun, take up the pen and discover the divine laws! The greatest need is peace for mankind! People who make scientific discoveries, work for humanity, give work to the poor, distinguish right from wrong, do not commit suicide, take care of orphans, and care for relatives and acquaintances will join the Creator. Those people rise both in the hearts and to the sky of unity. He sees with the eyes of the Creator, is aware of all secrets, observes the name of the Truth in his own name. Some individuals will join the Creator, while others will

remain as minerals. Minerals will not be mentioned. Even if they are remembered, they will be remembered only as evildoers. Why did those people not know the meaning of life? Because they were uneducated and unloving. Man always lives to rise. The Creator has given us this condition. Isn't that so?

Why do those who turn some people into tools instill pessimism in people and often remind them of the other world and death? These people do not want your good, they turn you into a tool. A seed does not suddenly become a tree. An embryo does not suddenly become a person. Evolution is everywhere. If you want to achieve something, always suffer and work hard. The greatest miracle is the mind. Any miracle other than that is ignorance. This is related to the belief in miracles in the subconscious of a person. Do not believe such deceptions. All great men have been ordinary men like you. There is no physical difference between them and you. All calendars are relative. The real calendar is the emergence of a smart person. Man is the noblest of creations and man is the most perfect of living beings.

The first intelligent people to appear were Adam and Eve. Eve taught Adam what is good and what is bad. Do you doubt it? No created being was created for evil. Each creature has its own mission. Man gave the name good to those who are good to him, and evil to those who are bad. Adam and Eve remained the symbolic name of people of ancient times.

Man came out of the cave and wanted to see the

beauties. Interest and need helped him in this work. Adam built a garden in Eden. Adam named all the animals. Don't shed each other's blood, don't drive each other out of your country! After all, each of you in this world was created from a pair of people. Unite, make the whole earth like a village.

Worshiping in mosques, churches, temples and synagogues does not mean being close to the Creator! The Creator is everywhere. God does not need your worship. A person can pray to the Creator when he is alone.

The perfection of the soul is the perfection of the mind. Be wise so that your soul may be perfected. Otherwise, you will be one of those who enter dreams after death and tell you that you are hungry. All art, wonders, enterprises, institutions, discoveries are the product of the mind, not of worship. Any prayer other than intelligence and patience is a product of consumerism. Hunting, gathering, etc. are included in the consumer economy.

People began to pray to gather good fruits and vegetables and to hunt good animals in the infancy of planet Earth. However, after seeing that the blessings were decreasing, they asked the Creator for wisdom. After gaining intelligence, they tamed animals and used them as meat and milk. They created new forms of plants. Didn't they do all this through science?! If a person is not educated, he is no different from an animal. Those who do not believe in the Creator will never be happy! They always complain in life saying

"I have no luck". The Creator is not a part of the Universe, but the Source.

The goal, the support, the witness, the master, the abode, the refuge, the best friend is the Creator! Creation and birth, the foundation of all things, act by His laws.

O people! Haven't you learned about attachment to the soil from plants, friendship, unity, hard work from an ant, and weaving from a spider?! What happened that you forgot your past?! You thought you were better than everyone else!? So, why are you destroying nature?!

We will illuminate the darkness born of ignorance with the lamp of the book of wisdom. The person who takes humanity and civilization forward will surely be saved. He thought of all the people and did exactly this act. Whoever thinks of mankind, surely mankind will think of him.

You can't do good to everyone. It was the most acceptable to do good to those who know the value of good, honest people. Also, be one of those people who do good according to their place.

There is one, when you give a glass of clean water to a man at the spring when he does not need it, and there is another, when you give a sip of water to a man in the desert. A sip of water given in the desert will bring you more respect than a glass of water given by the spring.

The body is the field, the first soul is the field of that body, and the second soul is the water, sun and air

of the body. Just as the sun alone illuminates the surface of the earth, so your second soul will illuminate and bathe you in light as it develops. The weakest part of a person is the navel and head. Both your souls reside here. But you are not aware of it.

Blessed is the one who guides the impure, lying and hypocritical person to the right path. A wise man should hate anger and greed.

O Creator of the Universe! You are all-powerful with means and You are everywhere. If there is only peace in the world, every place will be holy. I only ask for wisdom and patience from you! Guide me to the path of those whom you have given wisdom and patience! Guide me to be knowledgeable, to bring goodness to all and peace to mankind. I will make scientific discoveries so that people do not die in vain. Let me invent goodness so that there is peace. My creator! Didn't you create us for this?! He who saves one man is as if he saved all mankind. Tell me the secrets so I can join you!

The Creator is great, he does not need anything. Angel is man's mind, Satan is man's hungry feelings.

The sign of the creator is in all living things. Planet Earth itself is alive. All living things were created by a particle that broke off from the Creator. The earth planet and humanity will have a period of infancy, childhood, adolescence, youth, and old age.

They mastered ready-made products in their infancy; they deceived each other and fought with each other in childhood.

Adolescence is our present age. In this era, people, regardless of their age, want to undress, learn about other genders and always want to be in the center of attention.

The period of youth will be the period of intelligent people. During this period, people will create mobile and permanent cities under the oceans, seas and other planets.

The inflammations of old age will be caused by the mistakes of youth. As in childhood, wars in adolescence can lead to the destruction of the Earth. Let's enter the age of youth together. It is part of the divine laws. Everyone should pray to the Creator for himself, because you are born alone and when you die, you are buried alone. Only, twins are an exception.

Everything in nature is in motion. Try to always be in motion, whether physical or mental. Because being perfect is possible only in this way. We need to develop the society in such a way that a piece of coal turns into a diamond; let the fruitless tree bear fruit.

If there is as much ink as the clouds in the sky, if there are pens as many as your hair, it will not be enough to show the power of the Creator. What you know, what you learn, what you teach is like a drop in the sea. Educate yourself to know the secrets. Those people who believe in the Creator and try to understand Him through love and wisdom, scaring them is like scaring a wolf with a lamb.

Isn't the Infinite Universe similar to the human body? Everything in the universe is interconnected,

just as all organs are connected to each other in a lawful manner. If there is mutual trust between people, not even one person's finger will bleed.

Whatever you want, ask for it, but ask for your wishes with all your strength. Write them down and visit your goals every day. But remember, if you want to get to the tenth floor of a hundred-story building, aim for the hundredth floor.

Medical science is still in its infancy. He has not yet reached the age of youth. If there is no balance in a person's body, that person will perish. In the future, the treatment will be solved with food, drinks and fruits and vegetables.

No criminal should be forgiven. Otherwise, the chain of justice will be broken and humanity will be destroyed. Remember, fairness is the foundation of laws. Justice is the greatest weapon of mankind. A false pardon is his stillborn child. A smart person never commits a crime. Ignorance is the main cause of crime. A scientific, intellectual person will never do harm to others, will never commit a crime. If an educated person doing this, she is a whore who sells herself for money.

Love for humanity is part of love for the Creator. Man should love his Creator, he should not fear Him. The unconscious must fear. As love for the Creator increases, interethnic enmity will end, humanity will flourish, and everyone will progress and develop.

The butcher feeds the sheep so that in the future he can sell the sheep and make a profit and provide bread

for his children. In life, people are either butchers or sheep. A butcher is a skilled man, and a sheep is unconscious. Take a lesson, O human race!

All religion, race, class, gender, etc. the main goal of these ideologies is to kill people, enslave them and take over the world. No place on planet earth is more sacred than another place. Dividing the people of the earth into friends and enemies is a sign of polytheism. The Creator is alone.

'If the fire of love is ignited, the threshing floor of the mind burns. If the threshing floor is prepared, there will be plenty of bread and mankind will know the truth and will not believe everything that is said.

Feelings will always deceive you. Try to connect your mind with your feelings, then make a decision. Didn't the Creator show his signs, divine laws, evolution in your bodies?! Just as you are a baby, child, teenager, youth, adult, and old, the seasons—spring, summer, fall, winter—are ordered by this pattern. Doesn't this teach you yet?!

Just as the Creator's laws are everywhere, so Himself is everywhere. Didn't you make any place holy and call it the house of the Creator?! Don't you know that this will not go unpunished?! Woe to those who associate partners with the Creator! They called the houses they created "House of the Creator". Those people always remain mineral. They deceive people for their own benefit. The creator is everywhere! Didn't you each make a Qiblah for yourself and then fight with each other?! Do you still not draw conclusions

from these?!

Don't ask the Creator for material things, only ask Him for things that create the material! Feed on spiritual blessings, fast once a week.

Great wisdom lies in sleep, it is a mysterious world. It doesn't matter if your weapon is an arrow or a bullet, the main thing is that you can hit the target.

Cook your food in vegetable oil, that's right.

A well-dressed person is like a tree with good leaves and abundant fruit. Cover your private parts, be polite. Otherwise, you will be one of the cheap ones. Everyone will look at you and say that you are walking like our ancestors. That person is like animals; after all, animals don't have clothes either.

Spirituality must join history. Be a smart person so that no one gives you advice. Why does a perfect person need admonition? After all, he is aware of the Truth.

O people! Why do you sacrifice your life in vain for any ideology?!

As long as a person uses things that harm his body, sell him that thing for 10 times the price. The Creator needs nothing. You are mortal, you have needs - material or immaterial. Those who build temples and dedicate them to the Creator and earn money from this work, you cannot deceive the Creator.

Mind and desire are inversely proportional. As the mind increases, the number of desires decreases and becomes concrete.

You will be in terror day and night, you will perish

from all kinds of diseases as a result of immorality. Your life will not be secure; you will hear news that strikes fear into your heart. You will say: "I wish it was evening" in the mornings, "I wish it was tomorrow" in the evenings.

Those who limit the power of the Creator only to the holy books, why do you turn people into tools?! Is it heroic to deceive the ignorant? Everyone is free to think.

This book is a book that does not separate all religions, just as a father does not separate his children from each other. Which religion has shown bad ways? None! The main reason for inter-religious wars is the subjective opinions of religious leaders. The representative of every religion thinks he is right. This book will not cripple you spiritually like some religious books talk about the fear of exams. This book will prepare you to pass the exam. Your path is hard, difficult and thorny. You will overcome them with your knowledge and patience. Religious books always instill fear. We teach you how to prepare for the exam, not how it will be after the exam. Those who prefer to prepare for the exam instead of thinking about it after the exam will never get depressed. Was Adam ever commanded to build a temple? Temple is the easiest way to earn money.

Your brain energy is the key to all information. There is a living spirit in this energy. If this spirit is not perfected, it will perish. This spirit is also called silver wire.

Adolescence is a time of lust. The life of a bad day is short. The world is big enough for everyone. Instead of oppressing people living in other countries, be related to them, join hands, and let your fame spread to the world. Each of you is a leader and you were born to do great things in the world. The Creator is always your helper in achieving your wish.

You make wars out of greed. O leaders, open the borders, unite, the world is your homeland. You are all related and will be related again. Does the bull ever bellow when there is food? Does the donkey ever bray when there is grass? When you are at war, you are no different from them! War spoils everything. It loses the meaning of life.

You've been given free months as an inheritance, so why don't you try and learn? What else are you waiting for? War be damned! Just like the flood swept away the earth, if a person does not learn, all his hopes and dreams will disappear. If hope is postponed, it will be disappointed. A wish that is fulfilled increases a person's life. Why do you agree to have your name erased from the world after you die? Let a new page be opened in humanity with your name. If you become a scientist, you will always shine a light on humanity; your relatives and those who know you will always be proud of you. You will not be born again. How terrible is the end of evildoers and those who persecute the good! They die of hunger and misery. The meeting of these persons with the Creator is like a bat seeing the sun. In fact, your scholars know that we are not

disbelievers. While we are telling the truth, you are denying us as if to be good with the Creator. But the more you deny us, the more you will become mad and you will be among those who kill themselves.

To tell the truth, don't be afraid of someone who is older than you or someone who has more money than you. Always tell the truth. Then you will be medicine for this sick society. Follow the wise, not the big. Those who do not understand us have fat hearts and big words come out of their mouths.

Is there anything wrong with what is being said, O intellectuals?! If you are aware of the secrets of the Creator, your life will be long and blessings will rain on you.

In the future, architectural styles will resemble trees, animals and people. We are rushing like a river flowing from the top of a mountain. Some people want to stop us, they want to make us like a lake and make us stink; but this is useless. We will never deviate from our path. We don't divide people, you do. Life is movement. This short life should be lived as eternal life. It is better to live a day with your heart than a year with pain. The future belongs to educated people. To the ignorant, the future is as the past, and the past is as the future.

ALLAH REVEALS HIS COMMANDMENTS BY THE LANGUAGE OF INTELLIGENT PEOPLE

O children of mankind! Be witnesses who protect justice for the Creator's sake. Do not let hatred against any people lead you to injustice. Whoever kills a person who does not kill a person or cause mischief on earth, it is as if he has killed all people. Whoever saves him from death is considered to have saved all people.

Look for a means to get closer to the Creator. If you see orphans reaching maturity, return their property to them. Don't eat the goods wastefully and hastily thinking that they will grow up and buy their goods from me. Let the rich keep his greediness, and let the poor eat from that wealth with moderation. Take witnesses for the orphans when you return their goods to them.

When someone greets you, receive his greeting with greater respect or return it (as in the case of a given greeting)!

O People of the Book! Do not go to extremes in your religion and speak only the truth about the Creator. Except for those who believe and do good deeds, advise each other to the truth, and advise each other to be patient, the rest of the people are in harm's way.

It goes without saying that every difficulty is followed by ease. You should show respect to the orphan and encourage each other to feed the poor. You greedily eat inheritance, and greedily love wealth.

The Creator determined the destiny of everything from the beginning and showed the way. The Creator has grown you like a plant from the soil. Try to encourage each other to feed the poor.

Perfect people will turn the world into a palm-sized tent. When you wake up one day in the morning, you will see that "peace" snowed on the world overnight, and the borders are invisible. These borders are barriers that separate nations, races, countries from each other. You will be a citizen of the world at that moment. There are governments that rob their people in broad daylight. They speak falsely in the name of the Creator, they say that they are righteous. Look at their actions, not their words.

In any country where the land is fertile, the rulers are unjust and liars. In a country where the land is not fertile, the people are wise, and the rulers are just. The reason for this depends on the scientific interest of the people living on those lands. Work hard, don't forget to be educated when dealing with the land so that they don't exploit your work. Protect your rights with your knowledge.

The waves raised by the strong winds will break, cross the borders and resound around the world. The day justice is restored is the day peace is born.

Some brokers will stifle your creativity; they are envious of you and say: "Life is for a moment and mortal, do not tire yourself with such things." Don't be fooled by such words. Try to change the world and people with progressive ideas. Then you will be one of

the successful people.

We should do so that everyone is wise. A wise man's heart is like a scale, and he does not enter into the personal rights of any man. A primitive person is like a deaf, blind, and dumb person; that man has no new ideas. He is only interested in ancient ideas and his own problems. They have no self-confidence.

In the age of perfection, the poor will have no need to be silent and patient.

Being nervous, becoming angry, is a sign of weakness. The best medicine for a person with nervous excitement is fasting, walking in the fresh air and good company. The best response to a person who is throwing fire around with all his anger is silence.

The feeling of loneliness, silence, and dislike of relatives brought by urbanization will melt and disappear like snow in the age of perfection.

Be thrifty, not wasteful and stingy. He who cannot save a little cannot save a lot. Let money be your servant, not your god. Money is such a thing that when it suddenly increases, a person thinks that he will become immortal. Money will increase your life, but it will not give you eternal life. You should be useful to the society so that you can be one of those who join the Creator.

Perfect people are like a fountain. It is such a fountain that it is the center of refreshment that takes the flame of thirsty lips.

Try to see beauty in everything. There is hidden beauty in every ugliness. Be smart enough to find it.

People who find it will live long. The heart does not want goods, nor possessions; the heart wants justice and love.

Those who create good will join the Creator. Those who invent evil are no different from wild beasts. All people, races, religions are born from the same root, and separating them is like separating flesh from nails. Let there be no fear of life, let there be fear of not benefiting humanity. Earth is our home.

Don't be afraid to ask questions. If there are more questioners in the world, the ignorance will remain in history.

Use pleasant fragrances; they are heartwarming. Have a fragrance holiday. Try to create new perfumes on that holiday, let the first smell of those perfumes be felt on the perfume holiday.

Constitutions, laws should not scare you; remember that they are written in pencil and can be erased and replaced with more favorable terms for you. The main thing is to be one of those who demand your rights.

Life is a teacher that does not teach any of its students its secrets without experience.

There are many bad people. Some of the bad people want no one to be happy because of him. Let it be so that everyone needs him, but he does not do good to anyone gratuitously. If someone does good to another, envious people will be sad and say in their hearts, "Wow, he will be higher than me." Some bad people always think that let me eat someone else's rights; no matter what happens, if I have a lot of money,

then I will be immortal. A group of bad people will also try to erase goodness and kindness from the Earth forever.

Love creates sincerity, but fear creates submission.

Developed countries did not develop in the way of undressing and immorality. If that were the case, people without clothes in the primitive communal systems would create the most developed countries. Immorality destroys people, families, and the state. But it is possible to develop with science and knowledge. To prevent immorality, create more jobs and encourage young people to marry. Even the good intentions passing through us make our morals beautiful and one day comes the opportunity to realize that goodness.

A person should understand that his fasting and worship does not benefit the Creator and he does it only for himself. All our troubles come from not praying for ourselves and not sharing.

It is lack of information that scares people; read to increase your knowledge.

This book is a speaker without facial expressions. This book conveys the testaments of the past to the future. Just as a car cannot run without fuel, a person cannot live without good deeds. He who does not listen to the warnings of the wise will pay the price; He who respects orders receives his reward. Know what the sages teach as the source of life, save people from the traps of early death.

A careful man does his work knowingly; and a foolish man shows his folly.

A wish that is fulfilled will bring happiness. A foolish man cannot avoid evil.

He who makes friends with the wise becomes wise; He who makes friends with fools will suffer. A wise woman makes her home a palace. A foolish woman turns her house into a ruin. If a fool seeks wisdom, he will not find it. For the wise, this is as easy as drinking water. Walk away from stupid people because there is nothing to learn from them.

There is a way that it seems like a straight way to a man, but the end of that way is death. This way is the way of immorality.

A fool believes every word. A careful person counts every step he takes. A wise man avoids evil because he is afraid; he thinks that this act, this food will harm his health. A fool does not do this because he is afraid of fairy tales. The inheritance of a fool is folly. And the crown of the wise is the wisdom. In the age of perfection, the wicked will be defeated by the good, and the greedy by the wise.

A lazy person is not loved even by his relatives; but the hard worker has many friends. Always be diligent. Every work will bring you profit. Worship without action leads to laziness.

The greatness of the world depends on the increase of people's conscience and knowledge. If the people are dishonest and uneducated, the world will be destroyed.

He who is slow to anger is wise, and he who is quick to anger is foolish.

A man who loves peace will live long; A quarrelsome person will live a short life.

It is better to be hardworking and do good to everyone than to be lazy and a patch on society.

Without discussion, you will never know what is right and what is wrong. Make your decisions by discussing.

A little earned righteously is more blessed than a large gain gained unjustly.

A person differs with his mind, a machine with his speed, goods with his weight.

The mind increases the spiritual weight of a person. Their births and deaths are also different. Allah reveals His commandments through the language of intelligent people. For this reason, intelligent people do not trample on justice. Everyone loves honest people, because they protect the society from getting sick.

A kind word is like honey in a honeycomb - sweet to the soul and healing to the body. Love peace, it is the greatest need of mankind.

It is his appetite that drives the baker; laziness whips a person.

Winking is a sign of nervousness and falsehood, and sly smiles are a sign of evil.

A patient person is better than a brave person. The self-controlled person is superior to the exalted conquerors.

Grandchildren are the crown of grandfathers, and justice is the crown of those who rule.

Giving wisdom to a fool is like fighting a bear

whose cubs have been taken away.

The beginning of a dispute is like a water leak.
Without bleeding

end the quarrel, for you are wise.

A fool is easily influenced, there is a veil over his eyes, his brain is very weak, he will believe whatever they say. A fool is a pain to the person who gave birth to him, his father does not know what happiness is.

A bribe taker is someone who steals your rights.

The words of a wise man are like pure water. Don't hate anyone, tell them the truth.

The tongue of a fool leads him to death. Answering without listening is a shame and stupidity. Justice is not perceived by feeling, it is perceived by wisdom.

A bad leader is like a rotten tooth.

See change not as a threat, but as a new opportunity.

Wealth gained by illegal means is fleeting like smoke, it goes away quickly, it brings disease to its owner.

Simple people always rise; People who are knowledgeable and self-satisfied will set like the sun. If they can give up their arrogance, they will rise again like the Sun.

He who pursues knowledge, good deeds and love will find life and fame.

A good name is better than great wealth, and to be respected is better than gold and silver.

A book is to a wise man what gold is to a jeweler.

If the son of a poor man is educated, he is better

than an ignorant rich man. Be generous; work for the poor, cut and distribute sacrifices to the needy; hold on to them, you never know what will happen to you. Do good to others and they will do good to you.

Don't belittle the poor for being poor; do not sentence the innocent to prison in vain.

Don't flatter anyone and don't betray any of your co-workers to your manager. Just be a master at your job to conquer the top.

Do not blindly obey everything your fathers say; get educated, understand with your mind and stay away from bad influences. Always try to let your mind prevail over your feelings. Then you will be among the ascendants.

Teach your children not by beating, but by love and experience. Education is temporary. Stay away from immoral men and women. The immoral are a deep well, they will draw you down and destroy you. How good is the fate of those who judge the sinner.

He who forgets the bad, forgets the good even faster.

A word spoken on the spot is one of the greatest acts of bravery.

Try your science in medicine, not in the military.

If the people unite, they will break the strongest resistance.

The name of the ruler who does not have a poor person will always remain in history. There are those whose teeth are swords, their jaws are knives, and they seize and swallow the poor.

There is a Sun in every person, let it shine.

Open the borders and make the world like a village.

Don't say, "Let's eat and drink, we'll die tomorrow anyway"; benefit mankind and give work to the poor, then you will be long-lived and one of those who join the Creator.

Arise, ye careless women, hear my voice. Would you like to taste the pain of brother, husband and children? "No, we don't want to," you say. So why don't you protest wars? If there is no peace in the world, the cities will be without men and the human race will disappear.

Those who are pregnant with stubbornness and love inertia, withdraw, let humanity move forward.

Just as a belt is attached to a person's waist, ignorance is also attached to a person's waist. Try to get rid of ignorance!

Here are the planets before you; if you can, hold the planets you promised to give to your children. The Creator has multiplied you so much that your number is as many as the stars in the sky. May God make you a thousand times more than you are now and bless you as he promised.

Choose wise, insightful and experienced people from among you.

Your judges were instructed to "Look at the cases of those who have a conflict between them, with justice! When making judgments, do not be partial. Listen to the poor man as you listen to the rich man. Do not be afraid

of people, judgment is God's."

Your peaceful behavior will show other nations that you are wise and intelligent, and those nations who hear about these rules will say: "This great nation is indeed a wise and intelligent nation." But be careful, take care not to forget these laws, as long as you live, they are not erased from your heart.

O people, listen to the laws and decrees that I declare to you today: Do not kill! Do not commit adultery! Do not steal! Do not bear false witness against anyone! Do not covet someone else's wife. Don't have an eye on anyone - in anything - in their house, land, money, wealth and state!

Listen, man! You must love the Creator with all your heart, with all your being, with all your strength.

O peaceful people! You are the holy people of the Creator. The Creator has chosen you from among all the peoples on Earth to be His people, His special property. Therefore, strictly follow the recommendations that I give you today! If you always listen to these commandments and fulfill them, the Creator will fulfill the promise he swore to your ancestors; as he promised, he will not withhold his love from you. He will love you, bless you and increase your number. He will grant you many children, make your land's harvest, your grain, your oil fertile; your cattle, sheep and goats will have many young. You will be the most blessed of the nations. There will not be an infertile man or an infertile woman among you. None of your animals will be barren. He will keep all kinds

of trouble away from you, and he will not make you suffer from the terrible diseases you have heard or seen.

Do not lean towards gold and silver, lean towards science.

It is not food that keeps a person alive, it is good deeds and knowledge that keeps a person alive. If one of your compatriots is poor in one of the cities, do not turn your heart to stone and do not be greedy towards him. Open your hand generously and lend him what he needs and what he suffers from. Be generous to him, and don't feel bad when you give something, then the Creator will bless your work and everything you do. Because there will still be poor people in the world. Therefore, I say to you: be open-handed against the poor in your country. Don't send orphans away empty-handed after they finish school. Give them a generous share of your flock, your threshing floor, your olives, and your grapes.

Just as the Creator has blessed you, so be open to His creations. Do not trample on justice, do not be partial, do not take bribes, because bribery blinds the eyes of the wise and changes the mind of the honest person. You must strive for justice, only justice, so that you can survive and possess the land that the Creator has given you.

Leaders should not take many wives, or their hearts will turn from the right path. He should not accumulate a lot of gold and silver for himself.

Eliminate evil from among you so that all ignorant

people will hear and be afraid.

Do not pollute the world that the Creator has given you as an inheritance.

A woman should not wear men's clothes and a man should not wear women's clothes. God hates such a person.

Don't put an ox and a donkey in the same plow.

Do not wear clothes made of a mixture of wool and linen.

You must eliminate evil from among you.

No one should take his father's wife and dishonor his father's honor.

Protect yourself from all kinds of filth when you build a base to oppose your enemies.

When you make a vow, do not delay in fulfilling it, because the Creator will demand it from you. If you don't do it, you will be among the ones who harm yourself. But if you avoid saying the vow, it is not a sin.

Stand by your word (vow) and fulfill what you have voluntarily vowed to the Creator with your own tongue.

Do not violate the right and justice when looking at the case of a stranger or an orphan.

If you always listen to the word of the Creator, all the blessings will pour on your head: both in the city and in the field, your blessings will overflow; your children will be many, the fruits of your land will be abundant, your animals' young, calves, and lambs will be countless. Your baskets and baking trays will be

blessed. All your work will be easy. The Creator will bless your storehouses and make everything you do good. The Creator will shower abundant blessings on you in the land he has given you. If you follow the Creator's commandments and follow His path, the Creator will make you peace-loving people a holy nation. The Creator will multiply your livestock and make your land fertile. The Creator will open the door of the heavens and His storehouse of sustenance and blessings, rain down on your land from time to time, and bless every work of your hands.

THE LAND IS NOT OURS, WE BELONG TO THE LAND

O peaceful people! My first advice is this: have a pure, beautiful and bright heart, so that you will have an eternal, eternal and ancient kingdom.

Justice is the most beloved thing in the sight of the Creator; If you love God, do not turn away from justice. Justice is a gift from the Creator; keep it in front of your eyes.

O people! Love is the fortress of the Creator; whoever enters it will find salvation and be in peace; and the one who turns away from it will go astray and perish.

The Creator made you rich; why are you falling into poverty?

The Creator made you dear; Why do you think you are humiliated?

The Creator created you from the essence of knowledge; why do you seek knowledge in someone else and not in the Creator?

O peaceful people! If you search the universe from beginning to end, you will not find anything except the power of the Creator!

The Creator calls you to eternity; and you tend to mortality.

Do not brag about your status in front of the poor.

If one of God's creatures turns to you and asks for something, do not refuse him.

The land is not ours, we are your land! When the son of man understands this wisdom, wars will end in the world, and peace and security will be established between nations.

O owners of intelligence! Report to yourself every day, without being drawn into the report. Because death will catch you suddenly and you will have to answer for your actions.

The Creator has made death a glad tidings for you; why are you sad about him?!

God created the Sun to shine its rays on you! Why are you veiled from that light? (Do you put thick curtains in your house?!) The Creator tests gold with fire, and his servants with gold!

O peaceful people! Even if you run across the universe, even if you wander the depths of the heavens, you will not find peace until you bow to the laws of the Creator!

O peaceful people! Make the world a whole village

so that the Creator will reveal to you the secrets of His Majesty and enlighten you with the light of eternity!

Think and muse: do you want to die in your bed in vain, or do you want to learn and find secrets and benefit humanity?!

O owners of intelligence! Do not be a slave to greed. Because the Creator tests gold with fire, and his servants with gold!

O peaceful people! Spend your wealth on science and the poor, so that you may enjoy the endless treasures of honor and the inexhaustible treasures of glory in heaven.

O people! Your heart is the house of the Creator, keep it clean!

See the changes not as a threat, but as a new opportunity.

Poverty and destitution is the most painful execution...

Science is a precious legacy left to us by scientists.

Science is divided into two groups, external and internal. While external sciences are learned from a teacher and books at school, inner science - on the contrary, is not learned from a teacher. This is called ***Elmi-Ladun*** – innate-science.

Ladun means "***deep layer***" in Arabic and indicates the deep layers of science. This is knowledge that cannot be obtained by hard work (reading) alone, but also by feeling (feeling) that comes to the heart. It is also called the science of *enlightenment*. At one time the prophets, and later, Imam Ali and Imam Jafar Sadiq

were given this knowledge; they opened the veils over the secrets by this science. It is said in the "Quran" about this knowledge: ***"Undoubtedly, Jacob had a knowledge because We taught him (by revelation). But most people don't know that!"*** Quran, 12:68. (This book is the fruit of the science of ***Ladun*** taught to us)

Being cheerful and good-natured are two-headed.

Peace and forgiveness are signs of greatness.

The egoist has many enemies.

Generosity is a good and refreshing medicine.

Mingle with people and treat them in such a way that they will never forget you.

Criticizing an unhappy person is tantamount to pushing him to commit suicide.

Fear is an evil neighbor.

Shyness is the brother of despair.

A person who tells a lie either has a confused tongue or a confused face.

Without advice and counsel, the world will perish.

If you don't know something, say "I don't know" firmly; it's the one that's right for you.

There is no wealth better than understanding and patience.

A good deed cannot be replaced by empty worship.

To miss an opportunity is to give in to fear.

Negligence and laziness are among the greatest evils.

The love of learning is the jihad of every ignorant.

All human diseases are caused by negative energy. A person who gets rid of this energy can never have cancer or other incurable diseases. Negative energy enters a person through the spine. Therefore, the spine performs the function of the body's antenna.

**THERE IS HUMAN IN THE UNIVERSE, AND
UNIVERSE IN THE HUMAN**

If you want your sustenance to increase, do well
and avoid laziness.

The young man in grief is already old.

Save a little of your wealth by sharing it.

Worship without good deeds is not correct.
Because the Creator hears beautiful words, but accepts
beautiful deeds!

Everything in the Universe is inside each other like
a clew – human in the Universe, and Universe in the
human.

O people, you are a savior for another in what you
have earned beyond your own food and sustenance.

Science and knowledge is an inexhaustible
treasure.

Compromise is the little brother of triumph and
victory.

Ignore and bypass challenges or you will never be
happy.

Oppressing those who eat our rights is the greatest
wealth for us.

Ignore quarrelsome affairs.

Justice and fairness is the golden mean.

A miserly woman is better than a miserly man.

The gossip will not have a friend.

If you have debt, you are in trouble.
Bitter-tongued nature is a form of madness.

A PERSON WHO SEEKS KNOWLEDGE IS NEVER SATISFIED

The most dangerous place is the place of the
greatest position.

It is best to see with the mind.

An honest person hates adultery.

The Creator is all-powerful by means. Try to be
His mediator.

If you want to know a person, give him a job.

A person who seeks knowledge is never satisfied.

Gossip and talking behind one's back may make a
person feel comfortable, but it will later diminish him.

Make union with the Creator your only desire.
Because he is the only one who is immortal and eternal.
A person who constantly learns and is always in
scientific search is superior to an angel.

If you don't think about salvation today, when will
you? If you won't break the chains today, when will
you?

Diligence in small matters will produce excellence
in big matters.

Do not perfect yourself through fear, create inner
discipline for yourself; let it be your constitution.
Otherwise (if you become perfect through fear),
perfection turns into ignorance.

**IN A COUNTRY, IF THE DESIRE TO STUDY
DOES NOT INCREASE, IGNORANCE AND ITS
RESULTING DISASTERS WILL NOT
DECREASE.**

Never say "I" or "we"; always say "you". There is great wisdom in this sentence.

Investment in knowledge will bring you great benefits.

Knowing many languages does not mean being literate.

If the desire to study in a country does not increase, negligence and the resulting disasters will not decrease.

Ruthless power is like a pie, its slices are easy to eat.

Let all men know you; but no one knows you completely. People easily cross the stream, where they see a shallow place.

Before getting married, keep your eyes wide open; close one after marriage.

If fraudsters knew all the virtues of honesty, they would be honest people for the sake of profit.

The greatest tragedy of life is not to grow old too soon, but to become wise too late.

A quick eruption of a wisdom tooth does not mean that a person is quick to wise up.

EVERYONE HAS A SAVIOR WAITING TO BE BORN INSIDE OF THEM

A creator helps those who help.

Being able to make society think, in fact, means educating it. A thinking society is actually a society capable of passing through all stages of perfection. A society that cannot think and does not want to think is unsigned as a society and is always a slave.

If you let the soldier sit, he will soon want to sleep.

It is possible to rule the country with bad laws and good officials. No, if the official is bad, even the best laws will not help, and the big officials say to the small officials: "Make sure that there is no dissatisfaction; if there is, put it in another way; where it is broken, let it be broken.

If the violence is too severe and persistent, the oppressed's only salvation is to fall in love with the oppressor and the executioner.

Great personalities arise to guide their people from where they came from and where they are going.

Everyone has a savior waiting to be born inside of them.

If the admonition was unnecessary, then the prophets would not have been sent.

When a person is born, he is given a limit of joy and sorrow along with time. Since time cannot be lived without joy and sorrow, save the limit so that your life will be extended.

Distribute some of the harvest of your garden,

melon as an offering. At this time, the best part of the product (fruit, vegetable) should be given in the way of the Creator. In the near future, people will celebrate the Feast of Sacrifice from plants. It will be called "Bloodless holiday". In this festival, which will be celebrated every year in the summer, people will distribute the harvest of their gardens as a sacrifice for three days. Those who don't have animals or don't have money to buy animals, will be rewarded by distributing the fruits of their gardens to the poor. In the near future, people will plant fruit trees as offerings to the dead. All this will have a positive effect on the ecology, and will meet people's need for food and vitamins in a natural way. It will also increase people's feelings of helping and sharing, which will wash away sins and increase reward.

It is recommended for those who want to donate for the deceased to plant 12 fruit trees for the donation of the deceased. The heirs of the deceased should treat those trees with respect and take care of them. They should distribute the fruits of the trees to the orphans and the poor every year and ask them to pray for the deceased person. With their annual prayers, the sins of the dead person are either completely or partially forgiven. If the deceased person left a lot of wealth, it is recommended to feed 40 orphans from that wealth on the day of his death (or you can slaughter an animal and send a share to the home of 40 orphans).

In the year of the deceased, it is recommended to

feed seven orphans. If the deceased enters your dream, feed three orphans.

When a child is born, during a wedding, when a child is sent off for military service, because of the loss of someone, when he is admitted to an institute, when he graduates from an institute, when he finds a job, when he buys a house, try to plant a fruitful tree; distribute its fruits to those in need.

However, what is given to orphans (and the poor) is accepted as charity in the sight of God.

The universe is like the human body. Everything in the Universe is interconnected, just as all organs are connected to each other in a lawful manner.

The devil sits in the brain of a person who drinks wine and drives him away from shame and leads him to sin. Try to stay away from alcohol.

Ill-gotten wealth is as fleeting as mist; it goes quickly, brings disease to its owner.

Simple people always rise; educated and self-satisfied people set like the sun. If they can give up their arrogance, they will shine again like the Sun.

He who pursues knowledge, good deeds and love will find life and fame.

Stay away from water (bath, sea, river) during the sunset hours, do not bathe. Because, at those times, negative energy accumulates on the water, which affects the nervous system of a person, causes nervousness and failure.

The reason why rural people have more love for land than urban people is related to the fact that

villagers move on dirt roads in rainy weather. At that time, slipperiness is created under a person's feet, which unknowingly creates a love for that land in a person.

Since city residents constantly walk on asphalt, this kind of process does not occur in them, and they have less love for the land.

Just as it is not known where the bird will fly in the sky, it is not known what the bad leader will do.

When you raise your eyes to the heavens and see the army in the sky - the Sun, the Moon, the stars - do not be deceived, do not prostrate to them, do not worship them. God has gifted them to all mankind living under the heavens. Do not make a graven image of anything for yourself as an idol as that God has forbidden.

AN IGNORANT PERSON IS LIKE AN UNRIPE FIG ROLLED AWAY FROM THE ROOT

There are three points on a person's face to enter the parallel world, and when these points are pressed with three fingers of each hand and the password words are spoken (the location of the points and password words are not acceptable to the general public), the person's insight opens and he can clearly see the parallel world and the management of the Universe. At this time, the position of the fingers in space is in the form of "www".

The "@" symbol, which we press to transmit

information on the computer, is similar to the human stomach. So, there is a point on the stomach that is similar to the "@" sign, and by pressing it, a person can send his energy to any point in the Universe.

Listen, man! You must love the Creator with all your heart, with all your being, with all your strength. Let the words that I command you today remain engraved in your heart. Instill them in your child; talk about them when you are sitting at home, walking, sleeping, or standing. Bind them on your hand like a badge, and let them be on your forehead like a band.

Treat the pagans like this: tear down their altars, break their standing stones, cut down their idols, burn their graven images.

During the Age of Perfection, every seventh year will be a debt free year. Anyone who has a debt must release the debtor from the debt. He should not ask his countryman or brother for his debt; because, for the love of the Creator, the release of debts will be announced.

The Creator will bless you as He promised. You will lend money to the nations, but you will not open your mouth to anyone for a loan. You will rule over many ignorant peoples. As for you, there will be no lord over you.

Just as an unripe fig falls from a tree, twists and turns away from its roots, so does an ignorant person move away from its roots.

As the sweetest fruit is in the unreachable place of the tree, so is the mature and perfect person above

society. Achieving both of these takes effort. But it is delicious.

Plant a fruit-bearing tree in your garden so that you will be rewarded and those who eat its fruit will bless you in the future.

If you see your countryman's stray ox or sheep, do not neglect yourself. Be sure to take it and return it to your compatriot. But if the owner lives far from you or you do not know him, take the animal and keep it with you, and you will return it when the owner looks for it. You should do the same when you see someone's lost donkey, clothes, or other belongings.

Don't neglect yourself. Don't pass by when you see your compatriot's donkey or bull lying on the road. Be sure to help the owner to lift the animal.

Just as there are curtains between the layers of a pomegranate, there should be curtains in society. If the curtains are removed, society will rot.

If you come across a bird's nest with chicks or eggs in a tree or on the ground and you see the mother bird sitting on top of the nest, do not touch her chicks. Do it so that have a pleasant and long life.

When building a house, put a railing on the roof so that someone does not fall from the roof and his blood does not remain on your neck.

Plant and grow flowers. Because feeding flowers has a positive effect on a person's character.

When you enter your neighbor's vineyard, you can eat as many grapes as you like, but don't take them away in a basket.

When you enter your neighbor's field, you can pick the ears of corn with your hand and eat them, but don't touch the field with a sickle.

Do not violate the right and justice when looking at the case of a foreigner or an orphan.

Do not take a widow's clothes as a pledge for a debt you have given her.

When you mow the field, don't go back to pick up the sheaf you left in the field. Let it remain for the stranger, the orphan, the widow. If you do this, the Creator will make all your work easy.

After you beat the olive tree, don't go back and beat the branches a second time. Let it remain for the stranger, the orphan, and the widow.

After picking the grapes in your garden, don't go back to pick up what's left on the vines. Let it remain for your stranger, orphan and widow.

The land is not ours, we belong to the land. When mankind understands this wisdom, wars will end and peace will be established in the world.

Human qualities are transferred to the child through mother's milk at 21 months. Try not to wean your child during this time.

Cursed be he who disrespects his parents!

Cursed be the one who changes the border of his neighbor!

Cursed be the one who leads the blind astray!

Cursed be the one who violates justice while looking after the case of the stranger, the orphan, the widow!

Cursed be the one who defames his father's honor by having intercourse with his father's wife!

Cursed be the one who has sex with an animal!

Cursed be the one who has intimacy with his own sister, father's sister, mother's sister!

Curse the one who has intimacy with his mother-in-law!

Cursed be the one who ambushes and kills his countryman!

Cursed be the one who takes a bribe and sheds innocent blood!

If you strictly follow all the instructions I gave you today and listen to the word of the Creator, the Creator will make you superior to all nations.

If you always listen to the word of the Creator, all these blessings will pour on your head: both in the city and in the field, your blessing will overflow; your children will be many, the fruit of your land will be abundant, your calves, calves, and lambs will be innumerable. Your baskets and baking trays will be blessed. All your work will be easy. The Creator will bless your storehouses and make everything you do good. The Creator will shower abundant blessings on you in the land he has given you. If you follow the Creator's commandments and follow His path, the Creator will make you peace-loving people a holy nation.

The Creator will multiply your livestock and make your land fertile.

The Creator will open the door of the heavens and

His storehouse of sustenance and blessings, rain down on your land from time to time, and bless every work of your hands.

You will lend money to many nations, but you yourself will not open your mouth to anyone for debt. If you always obey the commands of your Creator, the commands he has given you, the Creator will make you the head, not the tail; you will be above, not below.

Otherwise, if you do not listen to the commands of the Creator, if you do not follow all the commands and laws precisely, these curses will follow you and cling to your collar: You will be cursed in the city and in the field. Your baskets, your baking trays will be cursed. Your children, the fertility of your land, and the offspring of your livestock will be cursed.

Everything you do will bring failure. Because of your bad deeds and forgetting the Creator, you will reap curses, confusion and punishment from everything you do; you will soon perish and disappear from the face of the earth. You will be completely cut off from the land you went to occupy, the Creator will rebuke you and destroy you. Until the end, the Creator will send tuberculosis, tremors, inflammation, fever, and send a sword on you. Your crop will burn and mold will cover it. The heavens above your head will turn to brass, and the ground under your feet to iron.

It will rain dust instead of rain on you, and it will be like this in your countries until you are destroyed.

It will be a symbol of terror for all nations on earth.

The birds of the sky will eat your corpse, the animals of the earth will tear it apart, and they will not be frightened and chased away.

The Creator will punish you with boils, smallpox, and other new diseases, and there will be no cure for your pain.

The Creator will take your mind, blind your eyes, confuse you.

At midday, like a blind man who is a prisoner of darkness, you will fumble with your hands. All your work will go wrong. You will always be scammed, robbed, and you will have no help.

The girl you are engaged to will come and be raped by another man.

You will build a house, but you will not live in it.

You will plant a vineyard, but you will not taste its fruit.

They will slaughter your ox before your eyes, but you will not eat a morsel of its flesh.

They will steal your vehicle in front of your eyes, and there will be no one to return it.

Your sheep and lambs will be taken away by enemies, and there will be no one to help you.

Your son and daughter will be taken away by foreigners while your eyes are watching.

You will be saddened by their longing, but your hand will not reach anywhere.

Strangers will eat the fruits of your land, all the crops you have harvested.

You will constantly be deceived and oppressed.

You will be blown away by what you see.

The creator will produce painful, incurable boils on your knees, feet, and entire body from head to toe.

You will sow much and reap little.

Locusts will eat your crop.

You will plant and cultivate vineyards, and you will not gather a single grain from the vine. Insects will eat it completely.

Even though there are olive trees all over your land, you will not find oil to anoint your body, because all the olives will fall.

You will have sons and daughters, but you will not see them, because they will be taken away as captives.

Insects will attack your trees and the harvest of your soil.

The warmongers who live among you will rise as they rise, and you will go down and down. He will lend to you, not you to him. He will be the head and you will be the tail.

Because you don't listen to the word of the creator, you don't follow the rules and laws that he ordered you, all these curses will stick to your collar and hit you until you are completely destroyed.

These curses will be a mark, a sign on you and your children. Because when you lived in abundance, you did not serve the Creator with joy and gladness of heart.

The Creator will send your enemies upon you. You

will take care of them, hungry, thirsty, half-naked, blinded by everything.

There, the Creator will fill your heart with excitement, take the light of your eyes, and make you desperate.

Your life will depend on a thread, your day and night will be spent in hiccups, and you will have no hope for tomorrow.

Hear, ye heavens, and see what I say!

O earth, hear the words that come out of my mouth!

My advice will be rain, my words will be dew - like drizzle rains on the grass, like showers on the green.

Praise the greatness of the Creator! He is perfect in all his work, all his ways are righteous; The faithful God who does not do wrong is just and true! Don't turn away from the truth!
